Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 20-49,54-63,68-69,74-80,85-86,91-98,101-103 and 106-114, drawn to compounds of formula I, simple compositions thereof and uses based on tackykinin antagonism and process for making (process B).

Group II, claim(s) 38, drawn to an additional process of making compounds of I.

Group III, claim(s) 50-53, drawn to uses employing compounds of I and additional ingredients.

Group IV, claim(s) 64-67,70-73, drawn to additional use employing compounds of I and additional ingredients.

Group V, claim(s) 81-84,87-90, drawn to additional use employing compounds of I and additional ingredients.

Art Unit: 1624

Group VI, claim(s) 99-100,104-105, drawn to additional uses employing compounds of I and additional active ingredients.

An election of a single species is also required if I is elected. If III-VI elected applicants must further elect a single pair of active ingredients within the group elected.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Process in II, namely A, is not coextensive with compound group but rather only makes certain compounds in view of the proviso present and thus cannot be considered to being specially adapted for the manufacture of compounds within I or sharing a common special technical feature. Groups III-VI relate to specific, multiple uses employing additional active ingredients which encompass compounds that do not all belong to a recognized class of structurally related compounds.

Art Unit: 1624

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication should be directed to Emily Bernhardt at telephone number (703) 308-4714.
